*Loving & Light*

**Official Statement of the Church of Prismatic Light**

The Church of Prismatic Light makes the following official statement with respect to the recent news of Tiffany Holloway. On Sunday, June 19<sup>th</sup> an emergency board meeting was held regarding some unbecoming behavior on both parts of the co-founders. The original purpose of the board meeting was to have a formal conflict resolution to these instances of behavior. After the conflict resolution meeting was finalized. A large congregation of the church requested a chance to speak to all board members, in this meeting several members of the church brought forth serious accusations in terms of Tiffany Holloways character behavior, her inability to manage funds in the proper manner, her inability to provide transparency and truth, and her activities during her service as the founder of the Church of Prismatic Light. While personal life is important, it is never recommended that personal and business matters mix due to the perceived notion of behavior. After reading the list of complaints as addressed, the letter went on to request Tiffany Holloways resignation. After the statement was read, Tyler Tobyne the Church's Business Manager at the time addressed the accusations of mismanagement of funds on behalf of the church, however, did not confirm nor deny Holloways mismanagement of church funds (or attempt thereof). Afterwards an open dialogue was had in terms of what Holloway could possibly do to stay in her leadership role, where she openly addressed the members of the congregation by stating that "if I leave, members will follow me" as well as inflammatory statements such as "I didn't sign a non-compete, so I will start a new church that will compete with this one". At that time, Board Secretary Ida Hamilton informed Holloway that it would be in her best interest to not further address the controversy. At this time, an official motion was made by Ida Hamilton asking for any board member who would like to make a motion to pose a Vote of No Confidence. Jeri Clark Made the motion with Ida Hamilton seconding the motion. At this time, the vote of No-Confidence was held in which Jeri Clark voted Aye, Roe Rivas voted Nay, and Ida Hamilton voted Aye. At this moment the vote of no-confidence was upheld. At this time, Tiffany Holloway requested that she be allowed to "gracefully" step down stating that she would be focusing on her children and on political matters. Jeri Clark openly accepted Holloways request and the meeting was then closed. Proceeding this meeting there has been a slew of information and concerns about the facts. The Church of Prismatic Light releases the following information as factual based on the events that occurred.

- The Trip to New York City was originally identified as a publicity trip meeting with Good Morning America. When that trip was cancelled Holloway stated she was creating a fundraiser where funding would be split with elevated access and The Church of Prismatic Light would receive donations from an identified show The Church, is unable to verify that the plans around the Fundraiser were official or truthful. The Church did not split any proceeds with Elevated Access and have yet to receive any request of such. The Church did not receive any funds from any alleged show.

Tiffany Holloway's Behavior while not illegal was unbecoming of the head of a church. Being a leader of a large public nonprofit is not easy, you must sacrifice personal life and personal privacy to ensure that you are representing the church you lead in a good light. While nothing about Holloway's Behavior was illegal it was extremely upsetting to members of the congregation.

Tiffany Holloway was in fact banned from the church discord on Saturday at 2:45 p.m. This was a move that was ~~authorized~~ by the Church Co-Founder Jeri Clark per requests from multiple moderators of the discord and was a poor attempt to silence the swirling emotions that were at play.

**PDF Statement Re Holloway.pdf**

• The Trip to New York City was originally identified as a publicity trip meeting with Good Morning America. When that trip was cancelled Holloway stated she was creating a fundraiser for the church. The Church of Prismatic Light will receive donations from an unidentified donor. The Church, is unable to verify that the plan the Fundraiser were official or truthful. The Church did not split any proceeds with Ele Access and have yet to receive any request of such. The Church did not receive any funds from any alleged show.

• Tiffany Holloway's Behavior while not illegal was unbecoming of the head of a church. Being a leader of a large public nonprofit is not easy, you must sacrifice personal life and personal privacy to ensure that you are representing the church you lead in a good light. While nothing about Holloway's Behavior was illegal it was extremely upsetting to members of the congregation.

• Tiffany Holloway was in fact banned from the church discord on Saturday at 2:45 p.m. This was a move that was authorized by the Church Co-Founder Jen Clark per requests from multiple moderators of the discord and was a poor attempt to silence the swirling emotions that were at the time rampant. This led to the emergency board meeting later that evening in which conflict resolution was held.

• There were in fact system errors with the auto moderation bot deleting messages from channels, which contributed to the confusion stated by staff.

• Staff were unaware as to why Tiffany was banned, and as such with little to no direction assumed that this was due to a bot glitch. While they were just trying to assist in providing some sort of information, it was misinformation none the less and communication procedures have been put in place to ensure all staff are aware of large situations.

• Tiffany Holloway did attempt to charge two personal trips to the Church business account and was successful in one trip being charged. Those trips were personal in nature, however, Tiffany Holloway defrauded the Business Operations office by claiming these trips as "work related".

• Tiffany Holloway has incited numerous stories, statements, and conversations stated partial or hand-picked statements of fact to paint herself in a more polished light. While The Church wishes Tiffany Holloway the best, it is important to ensure that the whole story is released.

• The church under new leadership will continue to advance the mission of the church to ensure Our LGBTQIA+ focused religion values the true self of all individuals.

• Procedures have been put in place to accurately handle all business matters with The Board Secretary being responsible for all Legal matters, The Chief Operations Officer being responsible for all operations of the church, and the Founder/Board Chair being responsible for the community engagement, advocacy, and presence of the church.

While there are additional factors that have been discussed The Church will not address any additional factors or statements. These are the facts of record as to the resignation of Tiffany Holloway and while the church admits its part in handling the situation poorly, the church has installed capable and confident leaders in their fields of expertise to lead and hold each other accountable. It is the church's desire to move forward from this situation and continue to serve the congregation in the best way forward with Love, Light, Truth, and Accountability. The Church will be revealing its reorganized structure come Friday at a Town Hall. Once this structure is released opinion and feedback will be solicited until Monday June 27<sup>th</sup> End of Business, with the reorganization beginning Tuesday, June 28<sup>th</sup>. In addition, the installation of a Transparency Team has been established which will be involved in the hiring of any cabinet level or board level position, as well as sitting as a guest to all board meetings. All social media accounts have been paused pending this reorganization to ensure consistent messaging. All social media will be reopened and live after the installment of a new Chief Communications Officer.

April 30th 2022. And here's the thing; no one cares. The church is pretty much over. Tiffany isn't with the church anymore which means most of the members are gone. Jeri is running things and she has maybe 3,000 members on social media and a good portion of the people who signed up to be official members left too. The church financial statements are public. They have about \$12,000.00. With Tiffany gone they won't be making any money. You're suing because you want fame - there is no audience or membership to make you famous. You're suing because you want money - there is no money.

You keep showing documents you have filed. Where are the judgements in your favor? Where is the approved copy-write if you filed it two years ago you should have been approved by now. Where are the videos of Tiffany saying bad things about you right from her own mouth? Where are the screenshots of her threatening you? When has she been cruel? I see the videos of you bad mouthing her and the church. I see the lawsuit and the copy-write you filed after the church started.
